

# LECTURE & LIVE DEMONSTRATION

## PRACTICAL DENTISTRY TO ADVANCE YOUR PRACTICE TOMORROW

with  
**Dennis Marangos**  
BSc, DDS, FAGD

**FEBRUARY 28, 2025**  
**VAUGHAN, ON**

### COURSE DESCRIPTION

Do you feel clinically, financially, or emotionally stuck in your practice? Are you unsure about the steps needed to elevate your practice to new heights? This fast-paced course will provide you with a reliable diagnostic framework to achieve predictable, profitable, patient-centered outcomes. Through live demonstrations of anterior and posterior composite restorations, you'll learn step-by-step techniques and effective strategies to boost case acceptance by connecting with patients on a deeper level. Discover strategies to enhance communication and captivate your patients. By mastering the art and science of case presentation you'll develop new skills to transform your practice and leave a lasting impact on your patients' oral health.

### WHO SHOULD ATTEND

This program is ideal for dentists at all stages of their careers, as well as restorative hygienists aiming to provide more effective and efficient care with today's advanced materials. Dental assistants will benefit from strategies to develop a seamless workflow with their dentists, reducing stress in the operatory. Front desk team members will gain insights into the power of effective communication and learn how to convert prospective patients who inquire about services.

Presented By:

7 CE  
CREDITS

## ABOUT THE SPEAKER

Dr. Dennis Marangos graduated from the University of Toronto, Faculty of Dentistry in 1986. He completed a General Practice Residency at Mount Sinai Hospital in Toronto in 1987 and currently maintains a private practice in Toronto with emphasis on aesthetic, restorative dentistry and orthodontics.

He is the principal dentist at the Yorkville TMJ Centre, a practice that focuses on management of head, neck and TMJ related pain as well as obstructive sleep apnea and snoring. Dr. Marangos has lectured and presented hands-on workshops for many groups and study clubs on restorative dentistry, orthodontics, the management of TMD and craniofacial pain, direct and indirect restorative dentistry, biometrics, and occlusion.
